

# Regency Building Supplies Industry Update – March 2018

Dear valued Regency Building Supplies client,

I am writing to you to thank you for your custom and to make you aware of the exciting changes that are coming with regards to Regency Building Supplies.

Regency Building Supplies has always valued its client base and for the past 40 years has always endeavoured to serve you with the best products and services available and we remain committed to doing so well into the future.

With the future plan in place, Regency Building Supplies will be moving from being a general building supplies business to a timber merchant. Regency Building Supplies will no longer be supplying sand and metal, wet trade products, doors and door hardware or general consumables. We will be ceasing all non-timber related sales and services as of Friday 16 March 2018.

Rather, Regency Building Supplies will continue to be focused on offering the very best in manufactured roof and floor trusses, structural timber framing, LVL, LOSP, as-well-as the complete range of timber related ancillaries. We will continue to grow our in-house estimation services as-well-as providing council liaison and engineering liaison services.

I wish to thank you for your patronage and I look forward to servicing your building needs with all things structural timber. Please feel free to call into Regency Building Supplies whenever you like, the coffee machine is always on!

Thank you once again. I look forward to seeing you at Regency Building Supplies soon...

Kind regards,

**Angelo Colangelo**
